

For which reasons would your institution find it beneficial to work with a cross-border QA agency?

International profile of the institution

International perspective on an international institute

International benchmarking

International professional field requires an international perspective on QA

International benchmarking

Joint Programs

Because we are an international institution; it just makes sense.

Cross-boarder programmms

For which reasons would your institution find it beneficial to work with a cross-border QA agency?

My country is small and yet the sector globally is large. Working with cross border agencies is crucial to ensure we are staying current with the global level

external experience informations about other „traditions“ and ideas

Assuring global perspectiva from glocal perspectives

To seek a broader perspective on QA.

Substantial knowledge and international benchmarking

Specialist benchmarking

Suggested improvements, international perspective, expertise

Joint research programs

For which reasons would your institution find it beneficial to work with a cross-border QA agency?

EU standardisation.

To make our standards meet with those of other countries, ultimately allowing for more exchange of ideas and persons.

yes

Would you agree with the EU proposal to prefer institutional accreditation over programme one?
